

Gemstone Powders Now Available from Goodfellow

Huntingdon ... 5 September 2014 ... Goodfellow, an international supplier of high-purity metals and materials for research and industry, has expanded its product range with the addition of natural (not synthetic) gemstone powders.

Currently available from stock in quantities as small as 10 grammes are powders of:

- emerald
- moonstone (multicolour)
- opal
- peridot
- topaz (yellow imperial)
- turquoise

Goodfellow is also able to supply dozens of other gemstone and mineral powders to special order.

Note: Due to the fine size of the powder particles, the powders do not necessarily resemble the gemstone.

For more information about gemstone powders from Goodfellow, call +44 1480 424 800, email info@goodfellow.com or visit the online Goodfellow Catalogue at goodfellow.com.

Emerald is one of the gemstones available in powder form from Goodfellow. Due to the fine size of the powder particles, the powders do not necessarily resemble the gemstone.

Goodfellow is a leading supplier of metals, polymers, ceramics and other materials to meet the needs of science and industry worldwide. The company specialises in supplying small quantities (a few grammes to a few kilos) of metals and materials for research, prototype development and specialised manufacturing applications. Standard products can be found online in the comprehensive Goodfellow Catalogue (www.goodfellow.com). In addition, Goodfellow is often able to supply larger quantities of metals and materials or items manufactured to specific requirements.
